

## V-Click Technology Officially Launched

### Technology-driven marketing solutions for Southeast Asian companies to target and capture China's lucrative consumer market

BANGKOK, Thailand, July 18, 2019 (GLOBE NEWSWIRE) -- V-Click Technology ("V-Click"), the joint venture formed between VGI Global Media Plc ("VGI") (VGI.BKK), Thailand's number one online to offline (O2O) solutions provider across advertising, payment and logistics platforms and iClick Interactive Asia Group Limited, ("iClick") (NASDAQ: ICLK), an independent online marketing and enterprise data solutions provider in China, is officially launched.

The suite of technology-driven digital marketing and media solutions provided by V-Click will include intelligence, social, and mobile tools based on iClick's 825 million<sup>1</sup> consumer profiles to provide clients with a comprehensive insight into the Chinese market. V-Click will also continue to launch various products and applications that extend the joint data and technological capabilities of iClick and VGI, including marketing SaaS solutions and AI-powered mobile applications, among others.

Thailand is one of the most popular overseas destinations for Chinese tourists. According to the Ministry of Tourism and Sports in Thailand, in 2018 there were 10.5 million visitors from China, with a total expenditure of THB 580 billion. Chinese visitors are the top source of foreign receipts in an industry that makes up about a fifth of the Thai economy, presenting significant opportunity to Thai brands to reach this audience.

Leveraging the respective digital strengths and extensive local networks of iClick and VGI, V-Click will help companies in the region deepen their engagement with the lucrative audience of Chinese outbound travellers and consumer groups through targeted and customized strategies as well as market leading solutions that consider the unprecedented cross-border retail opportunities.

To celebrate V-Click's launch, VGI and iClick co-hosted an industry event in Bangkok that provided insights on digital marketing in China, attended by over 300 marketers from Thailand. Leading Chinese internet players and marketing experts including Tencent, Ctrip, RED and DianPing shared their insights on China's outbound tourism market and the purchasing behaviour of Chinese outbound travellers.

"Advanced marketing technology has become an essential tool to help Southeast Asian consumer brands who are looking to penetrate Chinese travellers. V-Click is uniquely positioned to help Southeast Asian companies to reach Chinese consumer markets and convert marketing efforts to real business value, backed by the region's two leading marketing solutions players," commented Yan Lee, Chief Product Officer of iClick and Chief Executive Officer of V-Click.

"As announced in June, VGI's strategic investment in iClick further expands the ongoing collaboration between the two companies and this move demonstrates the confidence the two parties have in the synergies they can create and the market opportunities of which they are looking to take advantage," said Sammy Hsieh, Co-founder and CEO of iClick. "Going forward, we foresee more collaboration opportunities between VGI and its Group and iClick, which enables iClick to rapidly expand across Southeast Asia."

### About V-Click Technology

V-Click Technology Limited ("V-Click") is a Thailand-based marketing technology company that connects Southeast Asia's consumer brands with the large and growing Chinese market. V-Click is a joint venture formed between VGI Global Media Plc and iClick Interactive Asia Group Limited.

### About iClick Interactive Asia Group Limited

### Safe Harbor Statement

This announcement contains forward-looking statements. These statements constitute "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates," "confident" and similar statements. Such statements are based upon management's current expectations and current market and operating conditions, and relate to events that involve known or unknown risks, uncertainties and other factors, all of which are difficult to predict and many of which are beyond the Company's control. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: the Company's fluctuations in growth; its success in implementing its mobile and new retail strategies, including extending its solutions beyond its core online marketing business; its success in structuring a CRM & Marketing Cloud platform; relative percentage of its gross billing recognized as revenue under the gross and net models; its ability to retain existing clients or attract new ones; its ability to retain content distribution channels and negotiate favorable contractual terms; market competition, including from independent online marketing technology platforms as well as large and well-established internet companies; market acceptance of online marketing technology solutions and enterprise solutions; effectiveness of its algorithms and data engines; its ability to collect and use data from various sources; ability to integrate and realize synergies from acquisitions, investments or strategic partnership; fluctuations in foreign exchange rates; and general economic conditions in China and other jurisdictions where the Company operates; and the

regulatory landscape in China and other jurisdictions where the Company operates. Further information regarding these and other risks is included in the Company's annual report on Form 20-F and other filings with the SEC. All information provided in this press release and in the attachments, is as of the date of this press release, and the Company undertakes no obligation to update any forward-looking statement, except as required under applicable law.
